EDUCATION	<b>Indian Institute of Information Technology Allahabad, U.P., India</b> 2012 – 2016 Bachelor of Technology, Electronics and Communication Engineering <ul style="list-style-type: none"><li>Recipient of the prestigious ‘Merit-cum-Incentive Scholarship’ for students in top 5 percentile.</li><li>CGPA: 8.65 / 10.00</li></ul> <b>Senior Secondary School, A.M.U. Board</b> 2012 <ul style="list-style-type: none"><li>Percentage: 82.25</li></ul> <b>Higher Secondary School, C.B.S.E. Board</b> 2010 <ul style="list-style-type: none"><li>CGPA: 10.00 / 10.00</li></ul>
SKILLS	<b>Languages-</b> C, C++, Python and SQL. <b>Technology-</b> MATLAB, MS Visual Studio(familiar with OpenCV/OpenGL/Kinect libraries), Qt, Teradata and Informatica. <b>Key Interests-</b> Machine Learning, Computer Vision and Data Science.
WORK- EXPERIENCE AND INTERNSHIPS	<b>ZS Associates, New Delhi, India</b> Aug 2016-Present Business Technology Analyst <ul style="list-style-type: none"><li>Data Engineering role for creating Business Intelligence Solutions.</li><li>Extraction, Transformation and Loading (ETL) Development to warehouse sales data of a US Pharmaceutical client into organized data marts.</li><li>Was recognised with the ‘Project Champions Award’ 2016 for seamless contribution to the Commercial Analytics Hub.</li></ul> <b>Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland</b> Mar 2016-May 2016 Bachelor’s Theses <ul style="list-style-type: none"><li>Contributed by developing a fundamental block towards building an Image Manipulation Framework for Surfacing Tacit Elements of Human Behaviour.</li><li>Analysis and visualization of the skeletal tracking by Microsoft Kinect.</li><li>Development of a Qt based GUI to create a database of human joint locations in static images.</li><li>Implementing algorithms for estimation of human body postures from static images using Matlab.</li></ul> <b>Institute for Development and Research in Banking Technology, Hyderabad, India</b> Project Trainee May 2015-Dec 2015 <ul style="list-style-type: none"><li>Completed the development of an algorithm to extract rectangular pantograph region present in cash cheques. This work was spread over a full time summer internship during May – July, and after that as an off campus intern during July – December. The work done in this internship was published as a research paper in the following mentioned conference.</li></ul>
PUBLICATION	<ul style="list-style-type: none"><li>A. Ali and R. Pal, “Detection and extraction of pantograph region from bank cheque images,” in <i>IEEE International Conference on Signal Processing and Integrated Networks (SPIN)</i>, Noida, U.P. India, Feb 2016.</li></ul>
ACADEMIC PROJECTS	<ul style="list-style-type: none"><li><b>Human Emotions: A Facial Expression Perspective-</b> Revamped existing algorithm by an approach based on texture feature extraction, dimensionality reduction using PCA, and training and testing an SVM using RBF kernel. Also, used a self-created image database along with a standard one from Cornell University and obtained similarly accurate results.</li><li><b>Hexapod-</b> This robot consisting of a circular chassis and 18 servo – motors (3 in each limb) was programmed using Arduino MEGA 2560 to successfully implement locomotion of insects.</li></ul>
OTHER ACHIEVEMENTS	<ul style="list-style-type: none"><li>Successfully coordinated the management, marketing and publicity of the annual cultural festival Effervescence 2014 as the Overall Coordinator.</li><li>Member of the gold medal winning college badminton team.</li></ul>
